4. Once you're on the “Web Solutions” landing page, click “Custom Download” link to select your categories and subcategories or click “Preset Category Downloads” link to download our preset category packages. This ZIP package contains a XLS file and an image folder. The XLS (Excel) file contains all data for your selection. It can be used for your product data integration. The image folder contains your selected categories and sub-categories product images.

### Web Solutions

Overnight offers 3 solutions to help our retailers capture more online business. Click link below or on the left panel to start.

**Solution 1 - Custom Download & Preset Category Downloads**

This option is for those customers who already have an established website and would like to download images and breakdowns for their existing site. Our customers have the ability to grab preset categories instantly or customize your download by choosing any category or sub categories that may suit your specific need. This option requires some technical support on your end to upload all of the info and image to your site. This option provides a self-contained package zip file that can be saved as universal account for archiving. **click custom download link or preset category downloads link**

**Solution 2 - Create an I-Frame Solution**

For customers with technical staff or outside Internet contracting services, this option creates an I-Frame link to our products. Products will appear as a "Frame" within our customer's existing web site. Basically, customers insert a link such as "Signature Collection" on their website, when clicked, an I-frame will link our products to customer's website giving the consumer the ability to view more product while staying on our customers website. Dynamic pricing is available for all items with this solution. Consumers can change metal, color, diamond quality or size and have it price out instantly at current metal markets.

**Solution 3 - Create a Website**

We will create, host, and support an independent website under your store name, e.g. JohnJewelry.overnight.com. This option provides an effortless, instant internet solution for customers who want to sell overnight products with dynamic pricing capability such as different diamond quality, different metal etc. Your store brand will be the identity of the website. You will be able to upload your logo, contact info and "about us" and transform our site into your retail site. Thousands of new products will be added to the website on a regular basis at no cost to customers.

Gold: \$1230.50  
Platinum: \$1354.00  
Silver: \$19.94

- You can also click "My Account" on top of the page to access the left navigation panel directly for all our B2B2C solutions.
- If you clicked "Custom Download" link, you will see the "Custom Download" landing page. Click the "+" button to expand or click the "-" button to collapse to make your selections. Once you complete selecting the categories and sub-categories that you would like to place on your website, click "Download selected Items". Within 24 hours you will get an email with link to download your ZIP package; the Zip file will also be available in your archive (see 7).

### Custom Download

Please select the categories and subcategories below that you would like to place on your website. Once you have finished making your selection, click the "Download Selected Files" button and you will receive an email within 24 hours containing a link to download all of your selected products information (Images, Style #s, Stone breakdown, weights and pricing) or simply [Click here](#) for our "Preset Category Downloads"

7. If you clicked "Preset Category Downloads, you will see the "Preset Category Downloads" landing page. Here you can see two sections.

- In the first section, there are all our preset main categories and the respective sub-category products ZIP files.
- In the second section, there are your previously selected categories or previously downloaded ZIP files.

The screenshot shows the 'Preset Category Downloads' page. At the top, there is a navigation bar with the Overnight logo and various links like 'SAMPLE PROGRAMS', 'NEW STYLES', etc. Below the navigation bar, the page is divided into two main sections. The first section, titled 'Preset main categories', contains a list of ten categories with links to download their respective ZIP files. A red arrow points from this list to a yellow box labeled 'Preset main categories'. The second section, titled 'previously downloaded files', contains a list of five archived ZIP files with their creation dates. A red arrow points from this list to a yellow box labeled 'previously downloaded files'. The footer of the page includes 'QUICK LINKS' and prices for Gold, Platinum, and Silver.
