

Bridal Builder

The Magnetic selling system that your customers will love to play with!
1,300 engagement ring possibilities in a 1' display.

Bridal Builder

The demand for customizable engagement rings is at an all time high. To assist our retail store partners in capitalizing on this growing trend, Overnight is proud to introduce the **Overnight Bridal Builder**.

Containing 36 shanks and 36 center settings, all crafted in alloy and CZ, and all magnetized to fit perfectly together, Overnight's Bridal builder allows you to create 1,300 custom engagement ring design combinations in a 1-foot space in your store, in a wide range of Price points.

Because they are crafted in alloy/cz, you can allow customers to "play with components" and "mix and match" the shanks and heads to create their perfect engagement ring. The process involves the consumer in the creative process – which leverages "custom" and its growing popularity in recent years.

Once the customer decides on the style they want, Overnight will manufacture that creation within 7 business days.

Overnight's flexibility and manufacturing capability allows you to order the creation in **all metals**, and with any of our **7 different diamond qualities (including Lab Grown)**. Overnight can provide you the semi-mount, or you can select a center stone from Overnight's huge in-stock selection of **Certified Lab Grown and/or GIA Certified Naturally mined centers**.

We wish you tremendous success with Overnight's new Bridal Builder and we thank you for your continued support of Overnight.

"Overnight's Bridal Builder is a game changer! My clients are able to mix and match different diamond sizes and shapes with multiple band options so they're able to see their custom ring before it's made. It gives them confidence that they've made the right decision."

-Gianna Shiavitti | The Diamond Guild, Norwood, MA

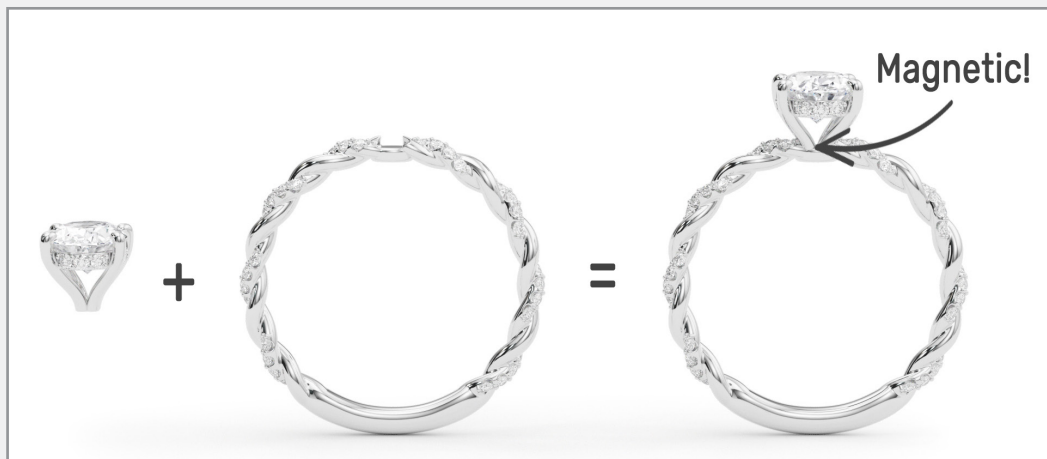

"Overnight's Bridal Builder is one of the most utilized sales tools in our store. With so many possible combinations and Overnight's flexibility to make the pieces in all metals, we've already closed 3 engagement ring sales. The customers love that they are involved in the creative process."

-Penny Six | Crown Jewelers, Fredericksburg, VA

"I've been using Overnight's Bridal Builder for only a few weeks and already it has generated a lot of interest and a few sales. Customers love picking up the rings and center settings and creating their own custom design. It makes them feel like their creating their own custom ring."

- Billy Smith | Smith Jewelers, Franklin VA

How it works!

36 magnetized heads and 36 magnetized semi-mount shanks all fit together to create 1,300 possible custom ring combinations.

Your customers will love playing with this and creating their own engagement ring!

Overnight manufactures all styles in 7 different diamond qualities (including Lab grown) and in all metals. Overnight will also customize any of our designs to meet your customer's desires.
