

Ring Size Guide

Printing settings

Before proceeding, use a ruler to ensure the printed sample below is exactly 40mm. In order to do this go to your 'print settings' before printing and ensure that the 'page scaling' options are not set to scale or shrink. Please note that ring size measurement will not be accurate if this step is not completed properly.

How to use the ring sizing guide:

Instructions

1. Print the ring size guide and check scale (see above)
2. Place a pre-owned ring on the closest matching sized circle on the Ring Size Chart on page 2. The **inner edge** of the ring should be perfectly aligned with the outer edge of the circle. This will be your ring size.
3. If the ring falls between two sizes, order the larger size.
4. If needed compare your result to the International Conversion Chart on page 3.

Please note that different countries use different sizes, so please compare and convert your ring size using the International Conversion Chart on page 3.
